The Children's Museum at La Habra is an ideal destination for a school field trip! Led by your personal museum tour guide, students will learn about the various hands-on galleries, including science, performing arts, transportation and much more. Basic Tours last 90-minutes.

**BASIC TOUR**

- **Tues.-Fri.** $8 per Person
- **Mon.** $10 per Person

**H20 HERE WE GO!**

- **Tues.-Fri.** $10 per Person
- **Monday** - $12 per Person

H20 Here We Go! Tours explore our community’s water sources, as well as the importance of water conservation.

**Galleries:** Nature Walk, Changing Gallery, Science Station, & Centennial Farm

**NGSS Standards:** Earth Systems, Engineering Design, Earth and Human Activity

**ACTIVITIES**

- TK & K - Properties of Water
- 1st Grade - Let's Build a Pipeline
- 2nd Grade - Water Engineering
- 3rd, 4th, 5th Grade - Water is Life

**HOME SWEET HABITAT**

- **Tues.-Fri.** $10 per Person
- **Monday** - $12 per Person

Explore what plants and animals need to survive and how they adapt to their environment. Learn all about what a habitat is and how an environment shapes the experiences of living things.

**Galleries:** Nature Walk, Changing Gallery, Science Station

**NGSS Standards:** From Molecules to Organisms: Structures and Processes, Earth’s Systems, Earth and Human Activity

**ACTIVITIES**

- Create and discover habitats
- Live animal presentation

**NOT SO CREEPY CRAWLERS**

- **Insects, the World’s Smallest Super Heroes**

This tour has been developed to educate children about the many beneficial things that bugs, insects, and their relatives do for our planet. Invertebrates are incredible creatures that help keep our world in balance by recycling garbage, pollinating plants, and so much more!

**Galleries:** Nature Walk, Changing Gallery, Science Station, & Centennial Farm

**NGSS Standards:** Interdependent Relationships in Ecosystems, Biological Evolution: Unity and Diversity, Structures and Processes

**ACTIVITIES**

- Insect meet and greet
- Mealworm and beetle observation
- Nature table exploration station

**BIRDS, BEES, AND BUTTERFLIES!**

- Let’s Learn About Pollinators!

March 12, 2024 through April 23, 2024

This tour has been developed to educate children about the many beneficial things that bugs, insects, and their relatives do for our planet. Invertebrates are incredible creatures that help keep our world in balance by recycling garbage, pollinating plants, and so much more!

**Galleries:** Nature Walk, Changing Gallery, Science Station, and Centennial Farm

**NGSS Standards:** Earth and Human Activity, Ecosystems: Interactions, Energy, and Dynamics, Structures and Processes

**ACTIVITIES**

- Insect mouth part guessing game
- Each class will receive a caterpillar & observation enclosure kit and learn about the butterfly life cycle

**BIRDS, BEES, AND BUTTERFLIES!**

- Let’s Learn About Pollinators!

March 12, 2024 through April 23, 2024

Welcome to the wonderful world of pollinators! Learning about pollinators and their important work encourages children to connect with nature, learn about where their food comes from, and gain a new perspective about the world around them.

**Galleries:** Nature Walk, Changing Gallery, Science Station, and Centennial Farm

**NGSS Standards:** Earth and Human Activity, Ecosystems: Interactions, Energy, and Dynamics, Structures and Processes

**ACTIVITIES**

- Insect mouth part guessing game
- Each class will receive a caterpillar & observation enclosure kit and learn about the butterfly life cycle

**DON’T FORGET ABOUT OUR TOUR ADD-ONS**

- LHCMTours@lahabraca.gov
- Questions? Call us Tues. thru Thurs. from 1:30 PM to 3:30PM

301 S. Euclid Street, La Habra
**TOUR ADD-ONS (30-MINUTE OUTDOOR ACTIVITY)**

<tbody>
<tr>
<td><strong>$5 PER STUDENT</strong></td>
<td><strong>$5 PER STUDENT</strong></td>
<td><strong>$3 PER STUDENT</strong></td>
</tr>
<tr>
<td>Includes a brief lesson on the importance of planting native plants, and what pollinators do for our planet. The children will learn about water conservation, pollution, and what composting is. Each student will receive 1 eco-friendly paper pulp pot and seeds to plant, along with 1 packet of seeds to take home with their potted seedling.</td>
<td>Animal tracks are a wonderful tool in learning about mysterious wildlife. We all have a purpose and should consider the impact we make on our planet. Every footprint leaves a mark on earth. What kind of print will you leave behind? Students will make an animal track to take home with model magic.</td>
<td>Mobile Museum is a STEM based activity. We have a rigamajig builder kit, a large magnetic wall with ramps and balls, a rainbow peg board, and water table. The children use these tools to engineer their designs. Mo-Mu promotes creativity, collaboration, and problem-solving skills.</td>
